Libby App Features

Lists

Libby: Create multiple lists by using "Tags". Tags bring together saved items across multiple library cards and networks, but does not display Availability.

Syncing Wishlist to Tags is currently in development.

History

Libby: Activity is a timeline of all activity on a device, including holds and returns.

OverDrive App: History is a timeline of all borrowed titles.

Single Bookshelf

Shelf bring together all loans and other account content from all library cards and networks.

Open Book Anywhere in App

Current title is accessible from any screen in the Libby app, displayed in a large central button.

Video Tutorials

"Learn Libby" includes quick video tutorials that teach patrons to use the app.

Device & Download Preferences

Libby gives patrons a range of options to customize device and download preferences, along with the browsing preferences already offered by OverDrive.

Booklists: Infinite Scrolling

Libby: Booklists and curated content load continuously as patron scrolls.

OverDrive App: Displays limited number of curated lists before reaching end of home page.

Windows 10

Libby is available for Windows 10 devices.

Recommendations *Coming Soon*

Purchase recommendation with the Libby App is in development. OverDrive hopes to introduce it "in the coming months".
